Olympic Trials, August 8th.

The Alberta amateur field and track championships and the Olympic trials for western section will be held at Strathcona Monday August 8.

There will be 17 events for men and seven championship events for women:

Men's Events—
100 yard run, 220 yard run, 440 yard run, 1 mile run, 880 yard run, 5 mile run.

Pole vault
Running high jump
Running broad jump
Running hop, step and jump
16 pound hammer throw
16 pound shot

Discus. Throwing javelin

120 yards hurdle

56 pound weight

28 pound weight

Women's Events—

100 yard run, 220 yard run, 880

yard run,

Four 100 yards relay

Running high jump

Running broad jump

60 yards hurdles.

These championship events are open to bona fide amateurs holding amateur cards, and with bona fide residence of two months in this province.

Rules of the A.A.U.C. to govern in all cases.

This will be one of the biggest sporting meets for field and track events which has been staged in the West, and a number of entries from well known Alberta athletes have already been received, promising excellent competition.

The events are being held under the auspices of Canadian Legion BESL Branch No. 1 and Edmonton Police Athletic Club.

All places of business in Stony Plain will close at 1 o'clock every Wednesday afternoon during June, July and August. The Postoffice also closes at this time.

LOCAL NEWS.

Mrs J A Barrie is visiting with her nephew in Vancouver, Rev Earle Barrie.

Mrs P Odenbach and Miss Lydia are visiting relatives in Leduc.

Mrs H L Seighartine and daughter Miss Theresa, her Master Leonard, from Rock Island, Illinois, are visiting with Mr & Mrs A J Shaul. Mrs Seighartine is a former resident of this district.

Mr & Mrs John Eberhardt have returned to their home at Edson, after a short visit with relatives here.

Mr Mondl, of the Brooks elevator, is leaving this week on a motor trip to Saskatoon.

Mr J McNalla left Monday on a business trip to Winnipeg. Mr Bigelow, of Edson, is relieving at the local station.

Mr J Smith was a visitor yesterday at Lac Ste Anne, on the occasion of the annual Pilgrimage.

In Stony Plain, on Saturday, July 23, to the wife of Albert Oeming, a girl.

Hoffman & Zucht have been awarded the contract, by the C. N. Ry. for grading the approaches to the railroad crossings between Winterburn and Carvel.

Work will shortly be commenced on the new residence for Mr A E Michael, to be erected on Second street west near the M S Moyer bungalow.

A detachment from the Salvation Army held an open-air service at Stony Plain on Saturday evening.

The funeral took place on Thursday last, of Mrs Elizabeth Armbruster, who had died July 19. Services were conducted by the Rev E Eberhardt at St Matthew Church, after which interment took place in St Mathew cemetery. Deceased was born at Gossendorf, Austria, in 1847, and had come to Canada in the year 1889. A large cortege of friends and acquaintances followed the remains to their last resting place.

At St Matthew's Church Stony Plain, on Sunday, July 24th, Miss Emelia B Miller (daughter of Mr and Mrs H Miller) was united in marriage to Rev B Behrend. The ceremony was performed by Rev E Eberhardt. The bridegroom is pastor at the Lutheran church; Tomahawk. The happy couple have gone on a visit to Mr Behrend's home in Nebraska.

The Great Nelson Brothers are putting on their show at Holborn Hall Friday Evg. Aug. 5. Acrobats, contortionists, mystery, comedy, humor. Dance after show.

The High Cost of Weeds

Actual evidence of the loss in value of weed-infested farm land is shown in an extract from the report of an inspector valuing a certain farm for taxation purposes. In his report, the inspector says: "It is badly infested with sow thistle—as are all the farms in the neighborhood. I have valued \$1,000 less than I would if clean of this weed."

This \$1,000 represented 12 per cent. of the value of the farm. Many inspectors would have discounted the value to an even greater extent.

The question naturally suggests itself: What, Mr. Farmer, is your weed crop costing you?

You may not be contemplating a sale of the land, nor considering the placing of a loan on it. For the time being the actual value of the land may be of no particular interest to you, except from a taxation standpoint. Nevertheless, the question is none the less pertinent: What is your weed crop costing you?

If you are using direct seed, it is costing you something for seedling it. Let it be assumed that the weeds are already there and seed themselves and that the cost of seedling can be eliminated. But you have to cut the weeds along with the grain; that costs something. You have to thresh the weed seeds along with the grain; that costs something more. You haul many pounds of weed seeds along with the grain to the elevator; more cost. You pay elevator charges on the total weight; another cost. You pay freight on the weed seeds as well as on the grain; extra cost. Finally, you pay to have the weed seeds cleaned from the grain; added cost. These are direct outlays. Have you ever taken time to figure up these costs? Their total would surprise you. And, by the way, having borne all these costs, what sum of money did you realize for the weeds thus raised and marketed by you?

But, apart from these direct costs, what was the total of the indirect cost of your annual weed crop? How much life and nutriment did these weeds extract from your land? How much moisture did they consume which would have given additional strength to your grain? How many extra bushels of wheat or oats or other grain per acre would you have realized from your land if it had been clean of weeds, and you had been producing grain only. Instead of an unmarketable mixture of grain and weed seeds?

But you argue, there is another side to the weed account in your farm ledger. It costs something to get rid of weeds and to keep land free of them. Perfectly true. And if you have permitted your land to become badly infested, the initial cost of weed eradication will be heavy. In fact, you may have hastily concluded that it is cheaper to go on raising weeds and grain together than to make a fight against the weeds. It is well to remember, however, that year by year the weeds will become more numerous and the grain smaller and smaller.

Then, too, the day may come when you will want to sell the farm, and you will discover that a weed-infested farm invites few buyers and a low price. Furthermore, it is safe to predict that if you continue to grow weeds, and thereby automatically reduce your grain yield, the time is coming when you will be forced to apply to a Company for a loan. Then Mr. Inspector will report that he values your land at from 10 to 20 per cent. less than he otherwise would if it had been free of weeds.

The most expensive and the least remunerative crop any farmer can raise is a crop of weeds, yet thousands of western farmers are engaged in this losing business. Why? Because they have never taken the time to reckon up the cost, or because of shiftlessness, or downright laziness. Possibly ignorance is the cause, the farmer failing to realize that allowing weeds to grow and flourish on his land means just as much work for himself in the long run as is involved in fighting them, while the cost of growing weeds is many times greater than the cost of eradicating them.

And if the cost and loss to the individual farmer is so great, it is, in the aggregate, to the municipality, the province, and the Dominion so enormous as to stagger the imagination.

Fight weeds, then, you must fight fire. Fight even harder, because you can insure property against fire, but not against weeds. The only insurance against weeds must be provided by your own labor. It will prove one of the best paying of all your farm efforts.

Want Canadian Birds For Field Museum

Expedition From Chicago Seeks Exclusive Exhibit in B.C.

British Columbia will probably have an extensive exhibit of her northern bird life in the Field Museum in Chicago as the result of the work of John Borden Field Museum Alaska Arctic expedition which is working in northern waters this summer. Ashley Iles, a Canadian, is one of the ornithologists with the party. The work is being carried out

under the direction of Mr. Borden in a private yacht built especially for the purpose.

"We intend to spend some time in northern British Columbia, waters thence along the coast to Alaska and are particularly interested in obtaining specimens of Canadian birds and animals to complete our North American collection."

Italian Pilot Remembered
A monument to the fame of Francesco de Pinedo, Italian four-continent flyer, has been raised by aeroplane pilot at Miller Flying Field, Staten Island, in the form of the "Hotel de Pinedo," built from the packing case in which the Santa Maria II. was shipped to the United States. The "hotel" is 10 feet by 20 feet, is covered with the tan paper that lined it on its ocean voyage, and is fitted up with beds for 10 pilots, 10 pillows.

Canada stands second in the number of telephones in use and in the production of automobiles and lumber, third in gold and silver production, seventh in steel production, and fourth in that of coal.

England Is Founding New Naval Museum

Valuable Exhibits Have Been Handed Over By Admiralty

A National Naval and Nautical Museum, the first of its kind in England, is to be founded at Queen's House, Greenwich.

A magnificent start has been given to the new venture by the Lords Commissioners of the Admiralty, who will hand over the entire contents of the Royal Naval Museum, including: The Chatham chest, dating back to the Armada.

Drake's astrolabe, Compass and dipping needle of Captain Cook.

The Franklin relics, Model of the Battle of Trafalgar, Uniform of Sir Charles Napier, West collection of Nelson relics, Admiralty seal models of British battleships from 1670 to 1870.

Nelson relics and other treasures now in the Painted Hall.

There will also be a collection of plans of ships built for the navy from the middle of the XVII century, a series unexampled in any other country, and models will illustrate the progress of naval construction from the Devonian to the Dreadnought.

THE NURSING MOTHER

Often Finds Herself Weak and Feeling Worn-Out

The nursing mother more than any other woman needs rich blood and plenty of it. The demands upon her health are heavy. Household duties and the care of her children exact heavy toll, while hurried meals, broken rest and incessant driving tend to weaken her. No wonder she is often indisposed through weakness, headaches, backache and nervousness. In this condition the blood will always be found weak and watery, and relief will come only through enriching the blood. For this purpose Dr. Williams' Pink Pills is the best blood-making tonic known. Through their use many weak, ailing wives and mothers have found new health and strength. As an example of this Mrs. Sarah Cortez, Elmontown, N.B., says: "While nursing my baby I became run-down, weak and nervous. My head ached all the time and I was not able to do my work. I had often read of Dr. Williams' Pink Pills and began using them, and what a blessing they proved. Before I had used a half dozen boxes I felt like a new person, and by their continued use for a while I was entirely restored to my former health and strength. I take pleasure in recommending Dr. Williams' Pink Pills to everyone suffering as I did."

You can get these pills through any medicine dealer or by mail at 50 cents a box from 'The Dr. Williams' Medicine Co., Brockville, Ont.

New Regulation Passed

Grain Owners May Now Appeal on Regulation and Grade

A new regulation has been passed by the Board of Grain Commissioners giving the owners of grain the right to appeal on questions of condition as well as to grade of their grain.

The regulation comes into effect on May 1 and is being put into force experimentally to demonstrate whether it is beneficial or otherwise to the grower of grain. The regulation applies to Port William, Port Arthur, Winnipeg, Edmonton and Vancouver and does not govern cargo shipments.

Hitherto the only appeal possible was against the grade given.

Increases Elevator Capacity
If construction of the new Alberta Wheat Pool elevator is started, within a month or so, as expected, it will be ready to begin operations in December. It will raise Vancouver's elevator capacity to 10,500,000 bushels. Six years ago there was only one elevator at the port with 1,500,000 bushel capacity.

The Positive One—"My friend, there is no such thing as a useless article, and I challenge you to give me an instance."

Immigrants Pouring In

Population Being Increased at Rate of One Thousand a Day

Immigration to Canada in the month of May this year totaled 23,941, according to a statement issued by the department of immigration and emigration. This is an increase of 29 per cent. over May, 1926, when the total immigration to Canada was 18,430; and 79 per cent. over May, 1925, when the total immigration to Canada for that month was 13,332.

Last May there were 8,403 British came to Canada; 2,508 from the United States and 15,020 from other countries, as compared with 7,936 British; 2,063 from the United States and 851 from other countries in May, 1926.

Immigration for April and May of this year totaled 59,282 or almost 1,000 persons per day for the two months.

In May of this year 5,561 Canadians who had gone to the United States intending to remain there permanently returned to Canada declaring their intention of staying in the Dominion. These are not included in the immigration figures.

Miller's Worm Powders seldom fail. They immediately attack the worms and expel them from the system. They are complete in themselves not only as a worm destroyer, but as a highly beneficial medicine for children, correcting weak digestion and restoring the debilitated system to healthfulness, without which the growth of the child will be retarded and its constitution weakened.

Merger of Shingle Makers

Amalgamation of the Shingle Makers of British Columbia

One of the largest business mergers that has taken place in British Columbia in recent years is that of the amalgamation of the shingle manufacturers of the province. At least 95 per cent. of the shingle manufacturers of British Columbia are now included in the recently formed organization, known as the Consolidated Shingle Mills of British Columbia, Limited.

Each shingle company is interested to the extent of the value of its plant.

The new organization will have supervision over manufacturing and selling.

The amalgamation is along the lines of similar movements in the lumber trade in the United States, the aim of which is to stabilize trade conditions.

Accorded Full Military Honors
A funeral with full military honors was accorded to J. T. Earle, of Lore, Man. one of the three victims of the airplane disaster near Hillsboro, Manitoba. The bodies of F. J. Wright and Wm. C. Weaver were forwarded respectively to Ottawa and Melfort, Sask. for burial.

Canada Ranges Cup

Canada won the Mackinnon challenge cup by nineteen points from teams representing England, Scotland, Ireland, Wales, and other parts of the Empire. Canada thus regained the trophy which she lost to Scotland last year by 14 points.

Generally speaking a pest is a person who, when you politely and disinterestedly ask him how he is, proceeds to tell you.

Testing Ability To Go Without Sleeping

Aviators at Camp Borden Better Record of Lindbergh

Canadian Air Force aviators at Camp Borden have been undergoing tests to determine their ability to go without sleep. It is understood that several bettered the record of Colonel Charles A. Lindbergh, when he remained awake on his transatlantic flight, and one flier, Lieut. Dave Hadden, former Queen's and Camp Borden rugby player, remained awake and actively on duty for more than 52 hours. Then, it is said, he sat down to read a magazine and, forgetting the contest, dozed off in mid-afternoon.

Fresh Supplies in Demand.—Wherever Dr. Thomas' Electric Oil has been introduced increased supplies have been ordered, showing that wherever it goes this excellent Oil impresses its power on the people. No matter in what latitude it may be found its potency is never impaired. It is put up in most portable shape in bottles and can be carried without fear of breakage.

Upeet Long Tradition

A departure from the long tradition of serving fine wines at Gullshall banquets and receptions to Great Britain's guests occurred at the luncheon to King Fuad. The Egyptian monarch expressed a wish to be served an alcoholic drink, since this was contrary to the ordinances of Mohammed.

The Friend of All Sufferers.

Dr. Thomas' Electric Oil is a valuable remedy to all those who suffer pain. It holds out hope to everyone and relieves pain, soothes, and cures everywhere. It is a liniment that has the blessing of half a continent. It is on sale everywhere and can be found wherever required for.

Tobacco Growing in B.C.

It is reported that a section of a company is being formed in British Columbia to engage extensively in tobacco growing and manufacture.

Keep Minard's Liniment near at hand.

A few years from now we shall probably see merrymen sitting by the side of the trans-Atlantic air highway, soiling hot dogs and deep sea souvenirs.

Mothers Should Use

When The Babies Are Cutting Teeth

During the baby's teething time, in the hot summer months, the bowels become loose and diarrhoea, dysentery, colic, cramps and other bowel complaints manifest themselves; the gums become swollen, cankers form in the mouth, and in many cases the child wastes to a shadow, and very often the termination is fatal.

This is the time when the mother should use Dr. Fowler's, and, perhaps, save the baby's life.

It has been on the market for the past 60 years; put up only by The T. J. Fowler Co., Limited, Toronto, Ont.

Blisters.
Prevent any chance of infection by using Minard's. Heals also.

Governments Join To Assist Settlement Of British Boys On The Land In Canada

What is expected to be one of the most constructive of modern land settlement schemes is embodied in an agreement for the settlement of British boys on the land in Canada, just concluded between the British and Canadian governments under the Empire Settlement Act of 1922. The scheme is a further development of the farm training centres for British boys which have already been established under the auspices of the provincial governments. Under this scheme, the British and Canadian governments propose jointly to expend a total sum of \$5,000,000 over a period of ten years, in the form of recoverable advances to assist suitable British youths to take up farming in Canada on their own account.

It is the desire of the two governments that British boys between the ages of 14 and 20 who are assisted to proceed to Canada, to work on farms should be able to look forward to a definite career on the land. A large number of British boys who come out as farm workers, but so far, of course, become farmers, but so far they have had to rely entirely upon their own efforts to the necessary capital to purchase and equip a farm, and this may take a considerable number of years.

The new scheme aims at curtailing this period of waiting, and under it a British youth, at the end of a few years spent in gaining the necessary training and experience in Canada and in accumulating some savings, will have the opportunity of being placed on a farm of his own, under Government supervision.

The scheme will apply to boys who have received assisted passages, have passed through the provincial training centres in Canada, satisfying the conditions between 14 and 20 years of age on arrival in the Dominion. On reaching 21 years of age, the boys—provided that they have acquired the necessary training and experience by working for wages on a farm—will be eligible for assistance up to an amount not exceeding \$2,500 for the purchase of a farm and for stock and equipment. No advances will be made to young men over 25 years of age. Settlement under this scheme will commence on April 1, 1928, and will extend over a period of ten years.

The scheme provides for the co-operation of the provincial governments, and the extent of settlement in each province will depend upon the measure of co-operation. The Dominion Government will, however, assume responsibility for actual settlement and the general administration of the scheme.

During the past year training centres have been established in several of the provinces under Government control and supervision. The British and Canadian governments make a joint cash contribution towards the operation of these provincial training centres, which are regarded as the basis of this Dominion-wide boys' settlement scheme.

It is believed that the prospect now afforded to thrifty and industrious British boys of a definite career on the land will have the effect of stimulating interest among British boys in the opportunities open to them in Canada under existing schemes for migration and under new schemes now being developed.

This scheme gives effect, as far as Canada is concerned, to recommendations of the Imperial Conference, 1926, which drew attention to the importance of counteracting the drift to the cities and of providing some assistance to enable suitable settlers to acquire farms of their own after they had gained the necessary local experience and were in a position to make a deposit in respect of the purchase price of the land.

Stockyards for Saskatoon
Work began last month on the stockyards here established at Saskatoon, Saskatchewan, by the Live Stock Producers of Canada. The initial expenditure will be at least \$80,000. The yards and necessary buildings will be completed in time to handle fall shipments of live stock.

W. N. U. 1923

Market For Hay In Britain

Dominion's Exportable Surplus Could Be Shipped Profitably

A cable received by the Department of Trade and Commerce from Harrison Watson, trade commissioner for Canada in London, indicates that Great Britain will offer an attractive market for the Dominion's exportable surplus of timothy and clover during the present year. The cable is as follows:

"English hay crop turning out so badly that imported hay will be required. Prospects are that there will be a fair demand for Canadian timothy and clover mixtures. London importers suggest £4 the (approximately \$25) ex ship per ton \$210 pounds."

Continued rains, which may have damaged other crops throughout the Dominion, have been beneficial to the hay crop. Last year the area in hay throughout Canada was 10,283,000 acres. This year it is more than two per cent. in excess of that, while, by reason of the rains the yield is estimated at much larger than that of last year, when Ontario and Quebec alone produced almost thirteen million tons. If conditions remain favorable, and the harvesting of the Canadian hay crop is propitious, there will, it is stated, be an exportable surplus of over a million tons during the present season.

Growing Apples in the West

Varieties of Apples Best Suited For Western Manitoba

The prairie provinces, as a whole, are not adapted to commercial apple growing, but plant breeders on the different experimental farms are gradually promoting varieties which may be successfully grown in home gardens throughout a large part of this region. There is one area in Manitoba, however, which bears promise of becoming a fairly extensive fruit section for hardy varieties. This is the country around Norway where the possibilities of apple orchards have been demonstrated by years of experiment at the Morden Experimental Station. A large number of seedlings were planted at this station in 1916 and fruited for the first time in 1926 and 1928. The results from these seedlings have been decidedly encouraging. Some of the varieties which produce heavily in the district are Patten Greening, Hibernia, Anna, Galette, Green Sweet, Dudley and Duchesne. Free blight seems to be the chief enemy of the apple trees in the district and is attacked by cutting out the infections as far as possible.

Canada's Trade With Britain

Freight Packing and Assured Supply Will Mean Greater Business

Mr. James Macdonald, minister of trade and commerce, returned to Ottawa after an intensive searching tour of the British Isles, conferring with the Empire Marketing Board and visiting Canadian trade commissioners. He predicted a great increase in Canadian trade if proper packing and an assured supply of the products desired were maintained. He stated that Sir William Crawford, head of the publicity section of the marketing board, would come to the Dominion to discuss a proposed co-operative plan of advertising.

Alberta Winter Wheat

A sample of winter wheat from the C. S. Noble farm at Nobleford, Alberta, measured 22 inches in height and is the average from the 1,500-acre field grown on dry land. The wheat was seeded by the furrow method and wintered perfectly, said Mr. Noble.

"St. I would like to marry your daughter."
"What's your occupation?"
"Radio announcer."
"Take her. You're the first man who ever said good night and meant it."

The more worthless a man is the more interesting he seems to be to some women.

How Smut Disease Spreads

Simple and Effective Method of Disinfecting Threshing Machines

One very essential precaution to be taken for the prevention of the spread of smut diseases of cereals is to make certain that the threshing machine is clean and free from smut spores before using it. The practice in vogue of moving threshing machines from one farm to another is undoubtedly responsible to a considerable extent for the spread of smut and its introduction into farms previously free from the disease.

A simple and effective method for the disinfection of threshing machines is recommended in a comprehensive bulletin on the Smut Diseases of Cereals, distributed by the Publications Branch, Department of Agriculture, Ottawa. The machine is first thoroughly swept inside and out to get rid of weed seeds. Some sucking or old bags immersed in formalin—one pound to one gallon of water—are then placed inside the machine, and all openings closed or covered so that the evaporating formaldehyde will be retained. In this way the vitality of any smut spore will be effectively destroyed while the machine is travelling from one farm to another. After five or six hours of this fumigation the inside of the machine will contain no living smut spores. The outside of the machine, wagon, racks, implements, etc., may be rapidly sterilized by means of an ordinary knapsack sprayer filled with the formalin solution. The whole procedure means about half an hour's work and costs very little.

Wool Industry Growing

Figures on Contracts Show Increase in Saskatchewan

A healthy increase in the wool growing industry among Saskatchewan farmers is indicated by figures on contracts this year in force with the Canadian Co-operative Wool Growers, Limited, in this province.

According to W. W. Thomson, manager for Manitoba and Saskatchewan, this year's contracts already have reached a total of 708, which will include 48,116 fleeces. Although the actual number of contracts is five short of the same date last year, this number of fleeces affected is much larger, being 17 of the total sign-up of last year.

Praises Canadian Wheat

French Banker and Grain Merchant Says Canadian Wheat Is Of High Standard

According to press despatches Louis Louche-Droigny, a French banker and grain merchant, who is credited as one of the leading authorities on wheat, recently gave an address to the French-American committee in Paris in which he declared that Canada was the greatest wheat exporting country in the world, that the grain from the Dominion had no equal in quality except some of the Russian cereal, and that supplies available from Canada would continue to increase.

A Bed that Rocks You to Sleep

Sir Alfred Yarrow, internationally known machine engineer, is a chronic sufferer from insomnia, but when travelling C.P.R. from Vancouver to Montreal last Fall, the smoothness of his traveling, combined with the soothing motion of the train as it swung over the tracks, provided an antidote to his sleeplessness. Being a scientific man, he naturally gave this curious fact full consideration and had constructed, to his specifications,

Greater General Interest And Activity Is Being Shown In Aviation Affairs This Summer

There is every evidence in the present summer of a much more general interest and activity in aviation affairs in Canada. At the last session of the Canadian Parliament a vote of \$2,892,232 for the Government Air Service was passed and an elaborate program mapped out. In the course of the discussion, the Premier stated that civil and military air forces would in future be kept distinct though under one minister and in one department, and that the carrying on of civil work under the civil branch of the Air Service was under contemplation by the government. This is to be taken as indicating the increasing importance of civil aviation in the Dominion.

Plans for an air mail service in Canada are taking more definite shape now that the secretary of state and the postmaster-general have stated that the government intends to establish an air mail service at an early date and to extend it to Eastern and Western Canada as conditions warrant. This year was to have seen the inauguration of such a service between Winnipeg and Toronto and Ottawa on the part of the government. This now has been postponed until probably next spring.

Tenders for air mail routes will not be called for until this fall. Late in the summer the Royal Canadian Air Force will undertake some experimental work in the Gulf of St. Lawrence and will carry on until the winter months, the intention being to secure accurate information on flying conditions before any contracts are entered into with private concerns. In addition to this preliminary work which has regard to a projected transfer of mails from incoming steamers to the larger eastern centers, it is expected that the force will be called upon to deliver mail to points in the north not accessible by dog team. In order to learn of actual working conditions, this doubtless looking to the establishment of regular mail routes.

Canada's future as a link in an Empire chain of airmail services, anticipated as coming about within the next decade, is a step nearer as the result of the arrival of Major Scott, of the British Air Ministry, to advise the Canadian Government on the selection of a location of a mooring mast for airmails. Several points in Eastern Canada and the Maritimes, including Montreal, Ottawa, and Toronto, Halifax and Kentville, have been visited and grounds inspected. From data secured Major Scott will make a report to the Canadian Government to guide it in its decision as to where the mooring mast, to cost \$100,000, will be located.

An addition to the multifarious uses to which the aeroplane is being put in Western Canada will be made this summer when an aerial act will be made upon black rust, one of

the most serious enemies of Canadian grain growers. Two aviators of the Royal Canadian Air Force, who were sent down to the cotton fields of the Mississippi, and there, another, the methods recently adopted for fighting the boll-weevil, will give instructions for carrying on a similar campaign against black rust this summer, one in Eastern and one in Western Canada.

An addition has been made to the commercial air services operating into developing mining fields in Canada through the inauguration of regular flights, after plans drawn up in consultation with the Manitoba Chamber of Mines, from Lac du Bonnet into the mining area of Northern Manitoba. Planes used are thoroughly modern seaplanes of cabin type, capable of carrying four passengers or a thousand pounds of freight, and as many of the mining properties in the Manitoba area are very close to lakes with which this district is plentifully besprinkled, visitors can be landed within walking distance of almost any mine.

There is evidence of ever-increasing interest on the part of the Canadian public in aviation affairs. Fifteen Canadian cities and municipalities have already set aside land for air bases, including Edmonton, Alta.; Haldimand, Ont.; Fredericton, N.B.; and Viridian, Man.; and representatives of the Royal Canadian Air Force are visiting these as part of the department's program to establish air routes across Canada. The Department of National Defence is said to be seeking an aircraft base on the Pacific coast, and plans are said to involve the establishment of two flying fields, one for seaplanes and one for airplanes.

Developing Western Fruit

Cultivating Fruits and Plants Suitable For Western Canada

A thriving horticultural business is being built up at Dromore on the Russell branch of the Canadian National Railway in the Western part of Central Manitoba, by F. L. Skinner. In his nursery there are fruits, garden shrubs, flowers, etc., some of which have been brought from the Ural mountains. Mr. Skinner is developing fruits and plants suitable for the Western Canadian climate, and products of his nursery have been shipped this year to the Pacific Coast and to England. Mr. Skinner is corresponding member of the Boston Horticultural Society and is the author of several books on horticultural subjects. His skill and enthusiasm is demonstrating that there are many possibilities in the horticultural line in Western Canada that are as yet little known to the general public.

Alberta Salt Works

Annual Output of Over Two Thousand Tons at McMurray

Alberta's contribution to the salt production of Canada in 1926 amounted to 2,017 tons, according to the recent report of the report of the Dominion Bureau of Statistics. Of the total of 263,547 tons produced in the Dominion in 1926, 96.1 per cent. came from Ontario, the remainder being contributed by Alberta and Nova Scotia. The Alberta salt works are located at McMurray on the Athabasca river north of Edmonton.

Magazine Editor Takes Up Ranching

Franklin Hunt, who resigned his position as assistant editor of the Cosmopolitan Magazine to become an Alberta rancher, has taken up his residence at the Eden Valley ranch, not far from that of the Prince of Wales. He will retain his connection with the Cosmopolitan in an advisory capacity.

Want Annual Grant Increased

The Saskatchewan Livestock Board meeting decided to request the Provincial Government to increase the annual grant to the board from \$10,000 to \$15,000.

Barber, after the shave: "I feel dyed, sir?" Customer, nearly bald-headed: "Yes, about ten years ago."

Best of all Fly Killers—10c and 25c per packet at all Druggists, Grocers and General Stores.

WORLD HAPPENINGS BRIEFLY TOLD

The King has approved the alliance of the Prince Albert, Prince of Wales, and the Bedfordshire and Hertfordshire regiment of the British army.

Atlantic air liners are only ten years away, Commander Byrd predicted in summing up the experiences of his flight to France upon his arrival in New York.

The Colonial Office received a telegram from the acting high commissioner in Palestine reporting the casualties in the Palestine earthquake as 200 killed, 355 seriously injured, and 375 slightly injured.

Assembling in Toronto more than 50 Canadian aviators adopted tentative plans for the formation of an association of their own, to be known as the Canadian Aeronautic Association.

Volcanic eruptions in past years is given as one reason for the poor run of salmon in Bristol Bay, Behring Sea, this year. Reports say the pack will not run more than half the usual season's taking.

First of two seaplanes to be used by pilots of the Dominion Airways Ltd., of Vancouver, in patrolling the West Kootenay for the forestry branch has arrived in Nelson from Quebec, to which point it was shipped from England.

The Irish Free State, in a cable received by Premier W. L. Mackenzie King from William T. Cosgrave, president of the state cabinet, expressed its sincere thanks for the prime minister's message of condolence respecting the death of the late Kevin O'Higgins.

Russia Preparing For War

Red Army and Fleet Have Been Greatly Strengthened

A report from Moscow says that War Commissar Voroshiloff sees in the "Week of Defense," which has just closed, the end of the feeling among the masses of false security concerning the possibility of war. All workers, he believes, now are alive to the danger and the necessity of being prepared. All eyes are turned toward the Red Army and fleet, both of which, he says, have been enormously strengthened during the past year, the great majority of whose officers are equipped theoretically as well as practically, and whose morale is on a higher plane than that of the bourgeoisie forces.

Finance Commissar Bruckman declares that the peasants will answer the British effort toward financial blockade by turning over their savings for the country's defence. He declared that the war budget, formerly forty per cent. of the country's entire budget, must be increased materially.

The week of defence was conducted with a monster rally in Moscow, including a sham battle demonstration of gas attack, tank operations, and athletic sports.

Canada's Flying Men

Announcement that, eighty Canadian fliers are competing for the opportunity to participate in the London-to-London airplane flight recalls that Canada contributed many men to the air forces during the war and suggests that it still possesses a considerable number of men qualified to operate aircraft.

Francis H. Richards, 76, of Riamford, Conn., is Thomas Edison's closest rival for the title of world's most prolific inventor. He has nearly 1,600 patents to his credit, while Edison has about 1,300.

W. M. U. 3691

Object To Word "Foreigner"

Ukrainians Not Ashamed of Ancestry But Consider Themselves Canadians

"We have much talk of immigration these days, and many unpleasant reflections are wrongfully made against the Ukrainian people. We have put our shoulders to the wheel. We are giving our brains and energy for the building of this country and we are willing to work and co-operate. Our children know no other native land but Canada, and for these reasons we protest against the brand of "foreigner" being applied to hundreds of thousands of Canadians and we have no reason to be ashamed of our ancestry.

So stated Dr. G. E. Dragan, of Saskatoon, addressing some 350 school children and others at the annual school fair and sports day held at St. Julien recently.

Pupils of 10 schools had exhibits at the fair.

Suffragettes Stage Demonstration

Described As the Greatest Meeting That Will Ever Be Held

Women suffragettes in London held a demonstration recently with banners flying in Trafalgar Square in support of Premier Baldwin's so-called "tapper vote bill," a measure granting the ballot to all women over 21 years of age. The demonstration was led by Viscountess Rhonda, who described the meeting as "the last great suffragette demonstration that will probably ever be held."

Many of the suffragette leaders were present, among them Mrs. Despard, Mrs. Pethick Lawrence and Mrs. Millicent Fawcett.

Winnipeg Newspaper Union

1784, but far from the present city of Brandon, Man., and Fort Carlton, in what is now the Province of Saskatchewan, have been selected for early marking by the historic sites and monuments board, Ottawa. Other western localities which will receive the memorial cairn or shaft are:

At Banfield Creek, Barkely Sound, Vancouver Island, B.C.—Terminus of Pacific cable connecting Canada with Australia, completed in 1902.

At Victoria, B.C.—Port Victoria, an early Hudson's Bay Company post and the centre of the first organized British government on the Pacific—the colony of Vancouver Island, formed last Grey, Vancouver, B.C.

Meeting place of Captain George Vancouver, R.N., and the Spanish explorers in 1782.

Telegraph passage, Skeena river, B.C., was named in 1855, when large supplies of telegraph wire were laid there in that year to carry out the construction of a telegraph line from America to Europe via Bering Strait.

On the successful laying of the Atlantic cable in 1866 the scheme was abandoned.

It's a question which is worse, shortcomings or long stayings.

Sending Power By Radio

Famous Inventor Claims Experiments Have Been Successful

Alphonse, the electrician driven by light, electric motors instead of the heavy gasoline engines now used will soon be a feature of air travel, according to Nikola Tesla, inventor of the alternating system of power transmission. The motor will be turned by power transmitted by radio, in the opinion of the famous inventor. He also believes the power will be generated in huge central power stations, from which it will be broadcast freely through space to provide power for all kinds of aeronautical travel.

The moisture of the air, obedient to the human mind through the application of air-piercing electrical currents and a wireless force far more powerful than the much heralded "death ray," will melt battleships and armies in the twinkling of an eye, in the opinion of Mr. Tesla. He also says such power will be used to drive irrigation projects and to operate farm machinery.

Interviewed in New York on the event of his seventy-first birthday, the inventor announced he had proved experimentally he could send wireless power half way around the world without losing 1/2 of 1 per cent. of it.

"When I was about nine years old I used to construct little water turbines in the streams that rushed down the mountain sides near my home in Smiljan, Yugoslavia," said Mr. Tesla. "On one occasion I told my uncle, who was a Metropolitan in the Greek Church, that some day I would put water power appliances in Niagara Falls, about which I had read."

Mr. Tesla aided in the designing and construction of the first power turbines to be placed under the famous Canadian-American Falls, thus realizing his boyhood dream.

Historic Sites Selected

Memorial Cairns To Be Erected At Brandon House and Fort Carlton

Old Brandon, hence, established 1784, but far from the present city of Brandon, Man., and Fort Carlton, in what is now the Province of Saskatchewan, have been selected for early marking by the historic sites and monuments board, Ottawa.

Other western localities which will receive the memorial cairn or shaft are:

At Banfield Creek, Barkely Sound, Vancouver Island, B.C.—Terminus of Pacific cable connecting Canada with Australia, completed in 1902.

At Victoria, B.C.—Port Victoria, an early Hudson's Bay Company post and the centre of the first organized British government on the Pacific—the colony of Vancouver Island, formed last Grey, Vancouver, B.C.

Meeting place of Captain George Vancouver, R.N., and the Spanish explorers in 1782.

Telegraph passage, Skeena river, B.C., was named in 1855, when large supplies of telegraph wire were laid there in that year to carry out the construction of a telegraph line from America to Europe via Bering Strait.

On the successful laying of the Atlantic cable in 1866 the scheme was abandoned.

It's a question which is worse, shortcomings or long stayings.

New White Star Liner "Laurentine" Launched

The Laurentine, belonging to the White Star Line, was launched recently at Belfast and she will be completed early in the winter after which she will be used on Mediterranean cruises. Next spring she will enter the Canadian trade and sail between Liverpool and Montreal. This liner, 15,000 tons, will share with the White

SUNDAY SCHOOL LESSON

JULY 31

DAVID AND JONATHAN

Golden Text: There is a friend that sticks closer than brother.—Proverbs, 18:24.

Lesson: 1 Samuel 18:1-4; 19:1-7; 20:1-14; 23:15-18; 2 Samuel 1:17-27.

Devotional Reading: John 15, 9-17.

Explanations and Comments

The Two Friends, 18:1-4.—David's victory over Goliath not only brought about the defeat of the Philistines, but gained for him a position at court and the devoted friendship of Jonathan, the King's son. Jonathan was present when Abner, the captain of the army, brought David, the victorious champion of Israel, into the King's presence. At once a beautiful friendship sprang up between David and Jonathan. They made a covenant together, exchanging pledges. Jonathan had the most to give. Nothing was so good for his new found friend, for he loved David as his own soul, and stripping off his own robe and girdle, he gave it to David and all of his apparel, even to his sword, bow and girdle.

The prime gain of friendship is that the knowledge of a noble one that was what Jonathan felt. David was Jonathan's friend on that day when he stood revealed in all the riches of his royal nature—that day when he was crowned as king. David was proved to be the greatest man in Israel, fullest of patriotism and beauty, courage and skill, and all qualities were adorned and set off by his humility. As you read the subsequent history of that friendship you are very apt to think that David was the gainer, for Jonathan was a perfect miracle of tenderness, and was never weary of sacrificing himself for the interests of his friend; yet I conceive that that would be false judgment. I am certain of this, that Jonathan would not have agreed to it. David was by far the more splendid nature, and I expect that is what determined which is the gainer in a friendship. It is the man who has most in himself to give who gives most, not the man who has most of what is external to give.—James Stalker.

"Convey thy love to thy friend as an arrow to the mark, to stick there, to stand as firm as the wall, to rebound back to thee; that friendship will not continue to the end that is begun for an end."—Quarles.

Landmark Will Be Preserved

Famous "Banbury Cross" Is To Be Left Standing

The Mayor of Banbury, in Oxfordshire, has announced that a compromise has been effected whereby the Banbury Cross, known to millions of children as the objective of the "Ride of the Cuckoo," is to be saved from the demolition demanded by motorists on the ground that it blocked the road and endangered traffic.

The railings about it will be removed and the lamps set back to give a wider roadway.

Hundreds of letters from America and all the British dominions, it is said, asked for the preservation of the landmark after news of the campaign of the motorists for its removal was cabled round the world.

Have Eight Million Reserve

Western world pools have been able to set aside in three years, by elevator and commercial reserve deductions, the large total of \$8,000,000 to ensure the safety of their organization and to carry out its projects. Approximately \$3,000,000 will be set aside from the proceeds of the 1926 pool as commercial and elevator reserves.

C.P.R. in Strong Financial Position

A Great Enterprise That Has Been Able to Administer

To examine the situation—financial and otherwise—of the Canadian Pacific Railway in the interest of United States holders of Canadian Pacific stock, the New York Investment and Banking House of Wood, Struthers & Co., after patiently exhaustive investigations, including inspections of the main portions of the railroad, have issued a 90 page report, the general conclusions of which are set forth in the following summary:—

"Few, if any great enterprises have been more logically conceived, more skillfully completed, more thoroughly integrated, or more ably administered than the Canadian Pacific. From a relatively modest beginning, it steadily forged ahead, till it achieved its present position of the greatest privately owned transportation machine in the world. And throughout this trying period of expansion, it is gratifying to note that the enterprise has been developed with due regard to profits for owners, as well as service to patrons.

"Its unbroken dividend record extends back for almost half a century. From 1885 (the years of its first disbursement to its stockholders) to date, its dividends have averaged 5.7 per cent. per annum, while no less than 10 per cent. has been paid for the last 17 years. Nor does the dividend record alone tell the whole story. For every dollar paid in dividends on its common shares, it has retained, in the form of surplus, an additional twenty-seven cents. The book value of its common shares is now \$244.

"Its record for service (as distinguished from profits) is even more remarkable. It has been the factor and has ever since been the chief factor in furnishing the thinly settled Dominion of Canada with transportation facilities a quarter of a century in advance of their needs and at rates materially below those prevailing on this side of the line, and to supplement this extensive rail service, it has developed one of the most extensive and favorably known inter-ocean shipping routes to say nothing of its excellent British Columbia coast service; telegraph, express and sleeping car services have been created; imposing lines of hotels erected; and mineral resources of magnitude exploited and profitably developed.

"The great war checked the normal growth of the Dominion and left behind problems of grave importance. But gradually the Dominion is emerging from the effects of the war, immigration is increasing and promises to develop even more satisfactorily, and, in like manner, the Canadian Pacific is making progress.

"The holders of the consolidated debenture stock and prior obligations of the Canadian Pacific, even during the initial period of development and the more trying period commencing with the war, have enjoyed excellent security. During the last decade fixed charges on these obligations have been earned on an average of more than 4.1 times and the assets securing them are valued by the company at more than a billion dollars, or 4.2 times the amount of the debenture stock outstanding.

"The investment risks to the shareholders are compensated to an unusual extent by the prospects of more than commensurate reward should their faith in the enterprise be vindicated. Not only do they receive a guaranteed rate of return, the safety of which seems to have been adequately tested in the last decade in coping with the trying circumstances of the period, but there are several avenues which will possibly lead to an eventual position of prosperity exceeding that of any former period of its history.

PRINCE MICHAEL ASCENDS THRONE OF RUMANIA

Bucharest.—One hundred and one guns boomed a salute to King Michael I. of Rumania, announcing the assembled multitudes that the six-year-old monarch has ascended the throne, succeeding his grandfather, King Ferdinand.

Prince Michael, whose mother is Princess Helen of Greece, was born October 25, 1921, and created heir apparent on Dec. 31, 1925, on his father, Prince Carol, renouncing his rights to the succession.

Some time ago a regency council was appointed for Prince Michael, the regency consisting of Prince Nicholas, 23 year old son of King Ferdinand, the patriarch of Rumania, and the Chief Justice of the supreme court.

A cortege composed of the royal household cavalry, the prefect of police and the marshal of the royal court, preceding a royal procession bearing Prince Nicholas, the Princess Mother Helen, Princess Elena and the little king himself, passed through the streets from Cotroceni Palace to the House of Parliament.

Within the building were the members of the House of Representatives, the military and civil dignitaries, and the members of the diplomatic corps. The regents, Prince Nicholas, Patriarch Miron Cristea and Justice Buguzian entered. They were followed by Princess Helen, who led His Majesty Michael I. by the hand into the chamber of deputies.

The little child hesitated, then halted as if on the verge of tears.

"Remember you are a king and the son of kings," his mother told him.

Strengthening out his puny shoulders the little king ascended the 15 steps to the royal tribunal and gazed upon the assembled deputies and senators, professors and learned men with the greatest unconcern, never smiling. Then came the cheers.

The Princess Mother Helen, dressed in deep mourning and wearing a heavy crepe veil, stood behind her child-king. She was pale and evidently laboring under great emotion, but erect and graceful. Prince Nicholas was the first to take the oath, and swearing to uphold the constitution, the rights of the Rumanian people and all allegiance to King Michael. Meanwhile the little king was glancing about as if in fear.

Then as the Patriarch followed with a similar oath, little Michael smiled. The Patriarch seemed like a figure which had suddenly emerged from the Bible—long beard and stern features. He read the oath in a deep voice, emphasizing the oath in a manner to show his realization of the importance he attached to the sacred moment. Justice Buguzian's voice was scarcely audible.

Have Elected Canadian

Sir Campbell Stuart is Chairman of Pacific Cable Board.

London.—Sir Campbell Stuart, a Canadian, and director of the Times Publishing Company, has been elected chairman of the Pacific Cable Board.

The election of Sir Campbell Stuart is the outcome of a dispute which Canada had with the cable board and which was settled at the Imperial Conference last year. Formerly the chairman of the board was appointed by the British Government, but the Canadian Government asked that he be elected by the members and this request was granted. Legislation making possible this and other changes in the board was enacted recently passed the British Parliament.

Maintain Trade Increase

Ottawa.—Canadian trade for June dropped slightly in comparison with June of last year, but for the three months of the fiscal year ending June there is an increase of nearly \$50,000,000 over the 1926 figure.

The grand total of Canadian trade in June 1927, was \$208,228,957, while in June last year it was \$210,512,014.

W. N. U. 101.

Work Proceeding Fast

1,430 Men Now Working On H.B.R. Construction

Saskatoon.—Work on the Hudson's Bay Railway is proceeding fast, 1,430 men now being employed on the job. Numerous gangs are spread all along the line from Mile 80 to Mile 228 and the work being done consists of filling, levelling, re-filling and ballasting. Steam shovels are at work at The Pas and Mile 339. Another has arrived and is proceeding north. It will be located at the pit at Mile 127.

At The Pas, filling in of trestle approaches to the big bridge over the Saskatchewan river is about completed. In the yards seven miles of track has been laid and filling in and ballasting is under way. The new concrete roundhouse and shops are nearing completion. Men are now working on the interior. When finished this will be one of the finest yards of its size on the continent.

Work on a similar yard at Mile 127 is slightly further advanced. The most modern equipment is being used all along the road. Especially is this noticeable in the service being furnished the workmen. There are now three complete new outfits of bunk, cook and dining cars at different points on the line. The bunk cars are furnished with steel benches. The dining cars are 60 feet long and the cook cars have the latest improvements for handling the requirements of large gangs. Throughout special attention is paid to sanitary arrangements. The new hospital unit has been placed in position. This is a revelation to those who are familiar with old time railway facilities.

Canadian Wheat Board Will Cease Operations

Business To Be Wound Up On September First

Ottawa.—The department of trade and commerce has issued a statement calling attention to the fact that in accordance with an order-in-council, passed on March 15, 1927, the Canadian wheat board which was brought into existence by an order-in-council of July 31, 1915, will be finally wound up on September 1st next.

On and after that date no participation certificates shall be paid and all monies in possession of the wheat board on the said date shall be declared the property of the crown.

At the present time the expense necessary to continue the occasional payment of participation certificates amounts to considerably more than the value of the certificates presented. As the lease for the storage facilities in Winnipeg expires at the end of August, it has appeared advisable to finally close the operations of the board on September 1, in the opinion of the department of justice this can be done by order-in-council and without legislation. Outstanding certificates must therefore be presented before that date if payment is expected.

May Receive Edward Medal

Bravery Of Officer On Remedy To Be Recognized

London.—The Duke of York and the commander of the Remount have alike spoken very highly of the gallantry of Petty Officer Jefferies during the fire that broke out on the battleship just after she had left Australia for home, and it is probable that he will receive recognition from the King.

Most likely Jefferies will be given the Edward medal, the usual reward for acts of bravery of that kind. It is a decoration greatly prized by the recipients. Perhaps more will be heard of the affair now that the Duke and Duchess are home.

It was through Jefferies' steadiness after the fire broke out that it was possible to turn off the oil cocks and prevent the flames from spreading. Thus Jefferies really saved the ship.

Fliers Receive Medals

New York.—Commander Richard E. Byrd and Lieut. George O. Neville were awarded the Distinguished Flying Cross by Secretary of the Navy Curtis D. Wilbur, in the name of President Coolidge, for "ourage and extraordinary achievement in flying the plane 'America' in France."

King Ferdinand

Ferdinand the Just, first king of Greater Rumania, who died at his summer residence, Castelul Palace, Sinala, after a lingering illness.

Irish Free State Policy

Special Legislation To Meet Situation Caused By Hostile Republicans

Dublin.—President Cosgrave has introduced special legislation in the Dail to meet the situation created by the assassination of Vice-President Kevin O'Higgins, and the general hostility of the Republicans to the Irish Free State.

One bill makes provision for the maintenance and preservation of the State, while another requires that candidates for the Dail or Senate, before nomination, must swear to a declaration of intention to take their seats and the oath.

This latter bill strikes particularly at the policy of Eamon de Valera, who with the other elected members of his party, the Fianna Fail, declined to take the oath to the King after the last general election and have been excluded from the Dail.

President Cosgrave also indicated his intention of seeking to provide for Mr. O'Higgins' widow.

Will Need More Harbors

Canada's Trade Bound To Increase Says Lord Willingdon

Saint John, N.B.—Reflecting an optimistic outlook on the future development of Canada, Viscount Willingdon, Governor-General of the Dominion, delivered an address at the luncheon before the Saint John Canadian Club and guests here. His Excellency referred to the resources of the country, and in this conclusion told of the large number of harbors necessary to carry on the trade of Great Britain.

He felt that in a short time it would not be a question of getting enough trade to keep Canadian harbors busy, but of getting sufficient harbor accommodation for the increased trade.

Confer on Chinese Matters

The British delegation who were here to attend the Institute of Pacific Relations' second biennial gathering to be held at Honolulu. The party arrived in Canada June 23 on the Canadian Pacific steamship Mont royal and proceeded west after a three-day stay in Winnipeg and Toronto. Sir Frederick Whyte and one or two other members were the guests of His Excellency the Governor-General at Rideau Hall. His Excellency was the chairman of the Chinese Indemnity Commission at Peking a year or two ago. Chinese matters are to be the outstanding topics of discussion at the Honolulu conference.

The conference which they are attending is of unusual interest this year, because of the presence, by invitation, of the British delegates and also of a delegate from the Russian Soviet. Delegates from the other nations of the world will attend.

The British party are from left to right: Hon. William W. Astor, Viscount Castlereagh, John Newton, Hon. Hugh Wyndham, Sir Frederick Whyte, chairman of the group, Miss B. Hunter, Lord Curzon, Michael MacDonald, son of the former British Labor Premier, and W. Pollock Ker.

Will Tour Dominion

Party Of Distinguished British Editors To Visit Canada Soon

Montreal.—The itinerary of the party of 100 British newspaper men who will arrive at Quebec August 12, provides that during the month they are in Canada the Britishers will visit practically every corner of the Dominion and besides visiting every city of importance, have an opportunity of studying at first hand Canada's natural resources and investment possibilities.

Under the leadership of John S. King, president of this English Newspaper Society, the party will be the most distinguished newspaper group to visit Canada since the Imperial conference in 1926, and will include, among others, Sir Richard Wainwright, of the Peterborough Advertiser; Isaac Edwards of the Bolton Evening News; E. M. Davies, Swansea Daily Post; John Buchan, Dundee Courier and Advertiser; T. T. Stanley, Birmingham Gazette; and R. V. H. Taylor, of the Bristol Times.

From Quebec the party will travel by special train to Fredericton, St. John and St. Andrews, N.B. Thence through to the Pacific Coast via Montreal—Ottawa, August 18; Winnipeg, August 20; Saskatoon, August 22; Edmonton, August 23; and Vancouver, August 25. They will return via the main line of the Canadian Pacific and arrangements have been made to the end that wherever the train stops the party will be greeted by provincial and civic officials and by the newspaper and business men.

At High River, August 24, they will be received by the Prince of Wales on E.P. Ranch and at Rideau Hall, Ottawa, earlier, by Viscount and Viscountess Willingdon. The party will leave Montreal for return to Liverpool, September 9.

Arrange Reception For Royal Party

Preparations For Three-Day Visit In Quebec Are Completed

Quebec.—All is prepared for the reception which is to be extended to Their Royal Highnesses the Prince of Wales and Prince George and to Premier Stanley Baldwin, when they arrive at the ancient capital on Friday afternoon, July 29. A meeting was held in connection with the visit to Canada of the royal visitors and Britain's Prime Minister, and following the meeting the detailed program of the events which will take place during the three-day stay here was given out.

Of the events scheduled to take place the state dinner at Spencer Wood will be the most outstanding. The welcome by the province will take place on Saturday when a luncheon will be held.

Premier Mackenzie King and members of the Dominion Government will visit the ancient capital to welcome the visitors to Canada.

POULTRY MEET WILL GREATLY BENEFIT CANADA

Ottawa.—"Canada is under a great responsibility; we are looking to her to open a new era in the poultry industry and to make it greater than ever before," said Edward Brown, president of the World's Poultry Congress, speaking at a luncheon tendered to visiting delegates.

Mr. Brown declared his belief in the great benefit to be gained through the congress this year. This, he said, was going to be by far the biggest meeting ever held in poultry or agricultural circles. Representatives from 40 nations throughout the world will be here, and he urged them to come with open minds, ready to learn and ready to teach their fellow delegates all that they can.

"It is for you to awaken to what may be in your country," he said, "and the responsibility is going to reveal what is in Canada." It was his belief, he declared, that the congress will do more towards putting Canada further on the map than anything else could.

Hon. W. R. Motherwell, minister of agriculture, in a brief speech, told the audience how the congress had been brought to Canada largely through the efforts of F. C. Elford, Dominion poultry director, who had shown the most remarkable energy and initiative in urging his cause. Furthermore, he declared, the thing had not been put across by pull. Canada, he declared had stood on her own merits, and this was the one great reason why the congress had come here this year.

"It is not yet time for congratulations," Mr. Motherwell said. "The time for adulation will come after the meeting is over and has been proved a success."

Aviators Sign Contract

Favor Late August For London-To-London Flight

London, Ont.—The contract for the London-to-London flight with Captain W. R. Maxwell and Captain T. H. Tully as co-pilots has been formally signed with Charles Burns, donor of the \$25,000 prize. The flight will consist of several hours, making a further survey of possible flying fields with the necessary two-mile take off within a few miles of the city.

The aviators will return to superintend the appointment of the field and will be here when the aeroplane arrives from Detroit early in August.

It is understood the flyers favor the latter part of August for the flight.

Would Boost Empire Goods

Director-General Of Empire Trade League Outlines Scheme

Montreal.—The Hon. director-general of the Empire Trade League and editor of the Empire Mail, in an address to the Montreal Rotary Club outlined a scheme to establish a chain of stores throughout Great Britain which would sell British Empire products only. It would involve, said Mr. Feilden, the formation of a million pounds sterling corporation to establish the shops and popularize Empire foodstuffs.

British industrialists joined, the speaker was taking a growing interest in Canada. He hoped to see many branches of British factories established here in the near future.

Receives Memento Of Diamond Jubilee

Microphones Used In Broadcasting Program Presented To Thomas Ahearn

Montreal.—Thomas Ahearn of Ottawa, who served as chairman of the broadcasting committee of the National Diamond Jubilee celebration, was presented with a memento through which the values of Canada's most prominent men were sent over the Dominion together with the first sound of the carillon from the peace tower at Ottawa.

The presentation was made by some 25 of his associates in the work of broadcasting the jubilee program.

"The Royal York"—Empire's Largest Hotel

Architect's drawing of the New Hotel

The first architects' drawing re-
leased by the Canadian Pacific
Railway Company in connection with
the construction of their proposed new
hotel at Toronto, reveal a structure
which through a series of varying
levels, will rise to a height of
stories above the street level.
Containing over 1000 rooms it will
be the largest and finest hotel
in the British Empire,
and rank with
the new
Brown in the name of York.

there as close a copy of British
political institutions as he could
contrive.

The location of the new hotel is
notable in that it is directly across
from the new Toronto Union Station,
one of the largest railway terminals in
America, and which will be opened
shortly. The building will extend 150
feet along the north side of Front
street, which is unusual, while at this
point and which will result in the
hotel being set off to splendid ad-
vantage. It will extend on the east to
York Street and to Fleet Street on the
north. On the east is an open space.
A wide airy and well-lit subway will
extend under Front street into the
new Union Station.

Some idea of the facilities of the
new hotel can be gained by the fact
that on the two floors above the
lobby and first mezzanine, it will be
possible to accommodate conventions
of six and seven thousand people.
One of these floors will be one of the
most notable in America. Around a
central foyer will be arranged a ball-
room, convention hall and banquet
room. These halls will be of unusual
height and size, being overlooked by
balconies opening out on another
mezzanine floor.

The roof garden at the top of the
tower will be far in advance of any-
thing that has yet been attempted
in Canada along that line. On three
sides it will be glass covered, thus
affording an uninterrupted view
across the lake and the city. Here
meals will be served. Above it will
be another mezzanine floor containing
additional facilities for serving and
entertainment.

Detail plans for finishing and de-
coration have not yet been completed,
but considerable personal attention
to such is being given by Mr. Beatty
and the Company's directors. The
result will be a building that, besides
being an ornament to the city of
Toronto in every respect worthy of
that city's importance and assured
growth, will be the largest hotel
structure in the Empire. In construc-
tion and furnishing the new hotel will,
as far as possible, be all-Canadian.

CHAPTER V.—Continued

"It's a pity they couldn't act at home," he grumbled. "It's a wonder they go home to sleep. I fully expect to find a bunch of children here some morning. The new man is here house on making the church serve the young people. If he had to clean up—and this new battlement flouren shows every mark—he might feel different. There's no respect for the sacred edifice any more. I can't get used to rioting and mirth in God's house, as the clergy up after it is fearful; and my word! this swimmer pool that he's got to put in is a wicked thing to me. The house of God is for the cleanser of hearts. Cleanse your hearts and not your garments," says Job. "Whited sepulchres, make clean the outside of the cup and platter while the inside is full of ravenous wolves—what is the little truth? But no one listens to me now—my ways is out of date. It's all youth, youth, and I wouldn't mind, so much if he brought in only our own young people. I buried their fathers and mothers, some of them, and christened them, but this man brings in every tag and he can find odds and ends—odds and ends—what does he care? This church had a name before he came. More girls and better boys came stopped at our curb than at any other church in town. What now? Baby carriages, mother's meetings, bean feeds, I find broken garters, tissue paper, table napkins rolled into wads, sandals, comforters, babies bottles. 'Servin' the neighborhood,' he says. It's grand to be a sinner these days—there's so much done for them—and even at that he don't believe in hell! I asked him, and what did he say? Says he, 'I wouldn't like to take the responsibility of hell, Mr. Sims, he says, 'Take away hell from our religion,' says I, 'and where are we?' says I, and he went out laughing like an overgrown schoolboy—laughin' because he could not answer me.

Religion ain't what it used to be. There's no way of warnin' the wicked now. Where's the church? he asked me used to sing—We'll hear the

WOMAN COULD HARDLY WALK

Mrs. Horn Tells how Lydia E. Pinkham's Vegetable Compound Restored Her Health

Hamilton, Ont.—"I have taken Lydia E. Pinkham's Vegetable Compound and would not be without it now. I had a female trouble so badly, I could hardly walk and I was all run-down and could hardly get around to do my house work. It would be in bed three or four days at a time. I was told by a friend to try your Vegetable Compound, I did and by the time I took two bottles I was beginning to get around again. I took ten bottles in all and now I am all right again and doing my own work. I have six grown-up to work for, so I have plenty to do. I also used Lydia E. Pinkham's Sensitive Hair, and I think it good. But I owe my health to the Vegetable Compound, and I think if more of it was used women would be better off. I would not be without it if it cost much more."

Mrs. NELLIE JAMESON, 805 East Canon Street, Hamilton, Ontario.

Do not feel broken down, nervous and weak sometimes Lydia E. Pinkham's Vegetable Compound is excellent to take at such a time. It always helps, and if taken regularly and persistently, will relieve this condition.

W. N. U. 1291

wicked wallin', wallin' walla, we'd hear the wicked wallin' in that great day. That was a grand hymn to bring conviction to a stony heart and to such as be of a perverse countenance. Now it's all 'Love o' God, Love o' God, Jesus the Friend.' Soft it came to me.

These young ones that call here—tell me they are Christians? 'Did you ever repeat?' I says. 'Lots of times,' they here, is that religion?

Well, here they come, rampin' down the street. 'The Merry Maids,' that's a silly name for a religious society. Where's the Christian Endeavor, the Epworth League, the King's Daughters?

"Good evening, Mr. Sims," cried the girls, swarming around the one man. "You have fixed the seats for us, haven't you? You're a good old soul."

Someone began to sing:

"How do you do, Mr. Sims,

How do you do?

Is there anything that we can do for you?"

"Shut up girls," said Lucy Powers, severely. "I want to talk seriously to Mr. Sims. He asked me the other day if I ever repented, and I want to tell him I've done something else all week. I've been gettin' in every recess for not getting my essay done in time, and I've had to watch the other girls playing while I sat inside struggling with an essay on 'Concentration' and the teacher was nasty to me all the time, and I've had such a bad time, I nearly lost my religion. Tonight I am going to ask for prayers for the congregation for the teacher—so mean, that she'll either change or die or something. I'll leave that to the Lord."

Mildred Masters had a problem too. "Say, Mr. Sims, isn't it terrible to me one seems to understand you? You know I resolved to try to smile this week and see if miles and miles of smiles would grow from mine, and when I smiled at teacher when she was scolding me she said to me right before everyone, 'Take that silly grin off your face.' Now what is a poor girl to do? Isn't life the bunk, anyway? What would you have said to her, Mr. Sims? They'll do the rest now, don't you bother; the House Committee has to get the most ready, you just advise me."

Mr. Sims laid down his broom and considered the troubled soul before him, whose red cheeks and sparkling eyes plainly belied the sad tone of her voice. The rest of the girls swarmed into the kitchen.

Miss Rodgers, the teacher of "Canadian Girls in Training," drank deeply from the Blue and Gold Book in her hours of need, for that wonderful book is a deep well, and no one need draw up an empty bucket who dips into it. It knows all about work among girls, and it can tell you exactly how to go about each meeting. Miss Rodgers, who had undertaken to lead this group of girls, had been perplexed long before if she had not had the Blue and Gold Book. It said that the meeting for this month would be social in its character, and the 'activity' would be the entertainment of foreign girls. The small print said, 'There are probably some girls of foreign birth in your neighborhood. Invite them to a supply meeting. Find out if they can sing or recite. Even if it is in a language unknown to you it will make them feel that they belong if they contribute to your program.' (Do you see how deep the Blue and Gold Book is?)

Miss Rodgers explained the project to her 'Merry Maids.' Consternation sat on their young faces. They

had been able to follow the Blue and Gold Book on the 'Guri' meeting. 'Stories about Hymns,' meetings, 'Cooking out of doors' meetings, 'Irish Stories' meeting, but where could they get enough foreign girls to go around? There were, fifteen girls in the group. If they did get fifteen girls how could they all get time to do a piece? And it wouldn't do to leave any out. Maybe some wouldn't like some of the others, and with no many nations represented it might make trouble, even fighting! Lucy Powers at this cried out, 'Oh, gee, wouldn't that be fun?' She was of liberalian extraction.

Dorothy Moss was afraid. 'The foreigners quarrel so among themselves,' she said, 'and they're so fierce. Our washerwoman's sister killed her man at Gilm, and when she was in jail at Stony Mountain my mother went to see her and asked her if she wasn't sorry, and she said she was, and she said she thought that was a good sign, and maybe she was going to repent and had pardon but she went right on and said she was sorry she had not killed him long ago. Mother did not know what to say. But Mrs. Karask said she believed in God all right, if that's what mother wanted to know. 'God was alright, you bet,' she said, and she was thankful, too. God had been good to her, and let her find the axe just when she was getting the worst of it. Mother said home all shaken up."

Hattie Butterfield had a bright idea. 'Let's begin with one foreign girl—real foreign, I mean. Just out from some foreign country—and I know one. Miss Abbie Moore has a Finn girl, and she said at me over time I pass, and she does her hair just like we do now, and she has white shoes and all, and she comes to church, and you wouldn't know it on her.' Hattie did not specify just what it was that Heidi was able to conceal.

Miss Rodgers intervened. "Remember girls," she said, "foreign girls are just like us. They feel, see, are hurt or pleased, just like us. It just happened they were born in another country."

"I guess everyone would want to be born British if they could," said Hattie complacently.

Miss Rodgers shook her head. "Not a bit of it, Hattie. Everyone likes her own country best. But we are American, and I like my own country best. But we are making a new country here in Canada, and we will love it best of all because we are making it. We are making paths and laying foundations, and that is what makes life here so interesting. Now this Finn girl who lives with Miss Abbie Moore, she is a Canadian from choice. She has come to us. Most of you were born here and had no choice in the matter at all. So let us make her true Canadian by her own choice. I think we will just have this one girl, and we'll make it her party."

"Gee, Miss Rodgers," said Lucy, "that will be a rich dish for her party for herself. Mother says you can spoil these foreign girls easy."

"Not many people are spoiled by being made happy," said Miss Rodgers gravely, "and an orphan girl, all alone, working for her living, is not likely to be spoiled overmuch. Well what do you say, girls?"

(To Be Continued.)

Easy Ways To Draw

Wide Choice Given People Who Lack Common Sense

The Grand Rapids Press suggests several ways in which bathers with more enthusiasm than good sense, and their lives.

Among this summer's earliest lessons in easy ways to die by drowning are the following, culled from one Sunday's report of nine such tragedies on Michigan lakes:

Rocking the boat, two deaths.

Using a leaking boat, two deaths.

Using unknown beach and stepping into hole, two deaths.

Swimming despite indigestion, one death.

Swimming across the lake alone, one death.

Riding motorboat awells in canoe, one death.

Life might not be quite so pleasant without occasional acts of needless daring and foolishness. But it would be a great deal more difficult for the Grim Reaper to do his harvesting.

Truth has a value today it has never had before.

Conflict Over Skirt Lengths

Movement Is On In Europe To Introduce Longer Skirts

"While America has accepted with complaisance current fashions in women's clothes both on the street and on the beaches, there seems to be some agitation in Europe as to the moral significance of skirt lengths and bathing suits," reads an editorial in The Outlook.

"Recently one faction of the Queen Louise Association in Germany, declared that short skirts were a sign of moral degeneracy and began a campaign for long skirts." The Outlook editorial continues. "For some reason, it developed into a rural versus urban conflict, and the women of cities banded together in defense of prevailing fashions. On another front we find Italian women protesting against current brevities and carrying their campaign to an insistence upon skirts below the shoe-top for all Italian girls. In some districts the movement for dress reform has met with considerable success. In Bologna children with short skirts are barred from the schools, while throughout Italy stricter regulations are in force for modesty on the beaches."

"But it is in Turkey that the most drastic movement is under way. Numbers of Moslem women are supporting a campaign for a uniform dress for all women. Extravagance and fondle jewelry are the evils the movement fights, rather than moral degeneracy, and its program is for the adoption of some universal costume, neat but not gaudy. Perhaps this would solve many problems, but are such measures the success of the movement. Women will dress pretty much as they desire despite all attempts at reform or standardization, and we may safely leave even skirt lengths and bathing suits to their own sense of propriety."

KEEP CHILDREN WELL DURING HOT WEATHER

Every mother knows how fatal the hot summer months are to small children. Cholera infantum, dysentery, colic and stomach troubles are rife at this time and often a precious little life is lost after only a few hours illness. The mother who keeps Baby's Own Tablets in the house (see ad) can doubtless do much to bring the baby safely through. They are sold by medicine dealers or by mail order, and are sold by The Dr. Williams' Medicine Co., Brockville, Ontario.

Enjoying the King's Garden

Public Admitted to Grounds at Sandringham Two Days a Week

The King's garden at Sandringham came first in the list of gardens in England and Wales opened to the public under the June scheme. Its share in that scheme, however, is much larger than this would imply. Most of the gardens may be seen on only one day, whereas admission to Sandringham is permitted during the absence of the court, on every Wednesday and Thursday, from May 1 to September 30, the total of the sixpences paid at the gate being equally divided, by the King's command, between Queen Alexandra Memorial fund and local charities. Last year local charities benefited to the extent of between £200 and £700 from the fees.

Sandringham leaves its visitors happily to themselves with a large liberty. The parties which take their simple luncheon sitting on the grass among the flowers may, very evidently, be trusted to leave no litter. A better expression of the prevalent spirit could hardly be wished than the admonition addressed by a woman in her small cap, but you can smell the flowers, but not too hard."

Minard's Liniment for earache.

Magistrate: (to talkative prisoner). "Now, what have you got to say?"

Prisoner: "I've got a good deal to say, your honor, if you'll give me time to say it."

Magistrate: "Certainly; six months."

From \$150,000,000 to \$200,000,000 is paid out yearly for papers that used to be destroyed before Joseph Gatti, a Park Row, New York, newsboy, began collecting them and selling them in mounds that make wrappers and cartons.

Firestone DEALERS

ARE PIONEERS IN
BALLOON TIRE SERVICE

Another Reason Why They Serve
Materials Better and Save Them Money

The advent of the Balloon Tire required an expansion in repair methods. To meet this situation Repair Schools were opened at most of the Firestone Dealers who have obtained the latest information regarding tire construction, care and repair methods.

Firestone Dealers are kept up-to-date on tire development and service—continually progressing and improving their ability to serve you better and save you money. See the nearest Firestone Dealer to-day and let him handle your tire requirements.

Little Helps For This Week

As many as walk according to this rule, peace be on them.—Gal. vi. 16.

The highest culture is to speak no ill.

The best reformer is the man whose eyes are quick to see all beauty and all worth.

And by his own discreet, well-ordered life, alone improves the erring.

Like alone acts upon like. Therefore, do not amend by reasoning, but by example; approach feeling by feeling; do not hope to excite love except by love. Be what you wish others to become. Let yourself and not your words preach.

—Henri Frederic Amiel.

A man's conduct is an unspoken sermon.—Henri Frederic Amiel.

Canadians Go Abroad

Estimated That Nearly 25,000 Canadians Touring Europe This Year

Frequent surveys are being made of the value of the American tourist trade to Canada but there are no estimates of the value of the Canadian trade to Europe.

This year the passports branch of the Department of External Affairs has issued over 15,000 new passports and renewed 1,300 passports previously issued. It is conservatively estimated that nearly 25,000 Canadians are abroad this year, mostly in Europe.

Relieves Asthma at Once. If you could read the thousands of unsolicited letters received by the makers from grateful users you, too, would realize the remarkable power of Dr. D. Kellogg's Asthma Remedy. All cases, insistent and chronic, are benefited by this great family remedy. Only suffer or experiment with worthless preparations when the genuine Kellogg's can be purchased everywhere.

Some men are born great, some achieve greatness and the majority do not trouble themselves very much about it.

A pleasant medicine for children is Minard's Worm Expeller, and it is excellent for driving worms from the system.

There is no rest for the man who does everything his wife tells him to do.

PROF. M. S. OROSSE

448 Logan Ave.

Winnipeg, Man.

Stony Plain and District.

Inga Councillors meet in Stony Plain on Friday, Aug. 8th.

The Ladies' Aid of St. Matthew Church (Missouri Synod) held their annual picnic yesterday afternoon at South Edmonton Beach.

The Schultz-Wudel motor party was touring last week thru Yellowstone National Park.

The hot weather last week proved to be hard on stock. Mr. Strassburger lost a horse from a four-horse team with which he was plowing. The animal keeled over and died instantly.

There was a schutzenfest on yesterday at the Edmonton ranges, and a number of the local marksmen were in attendance with their shooting irons.

Mr. Alex Stockwell, a school teacher well known in Stony, was married in Edmonton on July 6th to Miss Isabel McDiarmid, of Evansburg. Aleck who had been teaching in Evansburg for a year, has now secured an appointment from the Edmonton School Board to his teaching staff.

Sunday afternoon seen a very large number of pleasure seekers at Edmonton Beach, who had come by motor to enjoy a dip in the cooling waters.

Tenders are being called by the secretary of Golden Spike S.D., to have the schoolhouse painted.

Mr. S. C. Timbres, storekeeper at Golden Spike, who had been mourning the loss of a wallet containing \$350 from an inside pocket, was agreeably surprised Monday, when the same was returned to him, it having been found on the trail by Mr. A. Miske.

Rev. Dr. Hyal of Cleveland, Ohio, was in attendance at the Mission Festival held in the Reform Church, Glory Hills, last week.

Spruce Grove News

Good progress is being made on the new barn for Mr. Henry Kuhl, east of town.

Sunday next at 10 a.m. Rev. R. Smit, O.M.I., well known Oblate missionary, will offer Holy Mass and preach in German at St. Joseph church.

The Misses F and M Pinchbeck are at present on a trip to points East, which will include Toronto, Ottawa and Detroit.

Mrs. Waters has returned to her home in Calgary, after a short visit here.

Betty II., the Butcher's 2-egg-a-day hen, after breaking all local records, is now laid up for repairs.

On Sunday next, July 31, the Mission Festival at St. Matthew Lutheran Church (Manitoba Synod) will be held—those taking part in the services will be: Rev. Mr. Weidenhauer, of Shellbrook, Sask.; Rev. Mr. Klingbeil, of Wetaskiwin; Rev. P. Hanneman, Golden Spike; and the pastor, Rev. G. Poetzsch.

The members of the firm of Pongo & Noge, machinists, having secured positions at their trade in another town, are holding a sale of all their tools and machinery on Saturday afternoon.

Stony Plain and District.

Found, auto number plate. Apply Sun Office.

Miss J. D. Little of Teeswater, Ont., who had been visiting here with her sister, Mrs. R. M. Outway, left yesterday for a visit with friends at Vancouver.

On Saturday evening, while Mrs. Wm. Spicer was engaged in unhitching a team of horses in the stable-yard, the animals became frightened and ran away, knocking the lady down and dragging the vehicle over her body. While not fatally injured, she was forced to forego the pleasure of attending a wedding celebration at Carvel that evening.

The marriage took place on Sunday July 24, at the Ruthenian Catholic Church, Carvel, of Miss Mary - Styczek, daughter of Mr. and Mrs. Matus Styczek, Carvel, to John Westoc, of Wabamun. The ceremony was performed by Rev. Father Kreshylshin of Mundare. After the ceremony a reception was held at the residence of the bride's parents, near Carvel, where feasting and dancing were indulged in for the usual lengthy period. A preliminary reception had been held Saturday evening at the home of Mr. and Mrs. Styczek, when the bride was the recipient of many handsome and costly presents from her friends. The happy couple left on a honeymoon trip to Jasper Lodge. On their return, they will take up their residence at Wabamun. A select party from Stony Plain were present, on invitation, and the members enjoyed the festivities in a hearty manner.

Mr. Karl Strass has just finished work on the erection of a schoolhouse for the Rose Valley S.D., south of Duffield, and has taken the contract to build a new residence for Mr. Coats.

Rev. R. Berk, from Sutton, Nebraska, preached Sunday morning last in Glory Hills Reformed Church, where he had been pastor some fifteen years ago. In the evening he held service at Duffield.

Wheat Pool News Notes.

Steady progress is being made in the campaign for the signing of the Second Series of wheat Pool contracts. Weather conditions hindered the work of canvassers to some extent, nevertheless contracts are coming in to head office in a satisfactory manner. A number of new members are joining up; it is anticipated over 500 new members will sign up this month.

It is expected the foundation for Alberta Wheat Pool terminal elevator will be started next month, and the building completed in time to handle the 1928 crop.

Mr. W. J. Jackman, a director of the Alberta Wheat Pool, has been appointed special representative of Canadian Wheat Pool in Argentina.

PASTURE!

For a few more head of town Cows; \$1.25 a month, payable in advance. Apply A. Alt, Stony Plain.

Here and There

Canada's net debt was reduced by \$42,000,000 during the past fiscal year, a reduction in the national debt larger than any in its history.

"The Royal York" is the name chosen by President Beatty for the new Canadian Pacific hotel to be erected at Toronto. It associates the new hotel with the early history of that city.

Canadian Pacific Railway engineers, now busy with their preliminary survey of the projected railway to Chicoutimi and the Lake St. John district, are at present studying the question of a terminus site.

An aviation field available to commercial flying is to be prepared at Lethbridge, Alberta. The new field, which will be wide enough to allow ten planes to lie abreast, will also be used for aerial mail service.

A large party of professional men will leave for a tour of the west over Canadian Pacific lines, on the third annual tour conducted under the auspices of the University of Montreal. The party will spend about two weeks in the Rockies.

The second regular tourney of the Canadian Pacific Steamship Company of Australia, will be distinguished by the presence on board of that ship of the Prince of Wales and Premier Stanley Baldwin, of Great Britain.

Col. J. S. Dennis, chief commissioner of the Department of Colonization and Development, Canadian Pacific Railway, predicted a much larger immigration movement to Canada this year than last. He explained that the reported congestion of farm workers in the western towns was transient and not likely to recur.

What is said to be the first instance of Canada's lumber being shipped out of Canada into the States—manufactured in Canada to America—consists of nine large wood pulp grinders, of an output of 100 tons of pulp a day, now ready to be shipped to the Port Arthur Shipbuilding Co. for consignment to the St. Regis Co., Watertown, New York.

Excellent progress is being made with the branch-line programme projected by the Canadian Pacific Railway for the three Prairie Provinces, according to D. C. Coleman, vice-president in charge of western lines. The work of construction, he said, is progressing rapidly and every effort is being made to have the new lines in operation by the time the fall crop movement begins. Keeping pace with the rising tide of land settlement the company expects to open the line from Lloydminster to Clan Donald on July 15. This branch is of particular interest as it serves the colony of Hutterites located in the Clan Donald district. These settlers are doing remarkably well and have forty per cent. of their land broken.
